

## ABOUT

Enthusiastic engineering graduate with a B.Tech in Computer Science from VIT, Vellore, bringing a solid foundation in technology and a proactive approach to problem-solving. Experienced in applying technical skills and industry knowledge gained at Accenture. Currently pursuing a Master's in Information Systems at NTU, with a commitment to continuous learning in order to keep up with the technological advancements.

## EXPERIENCE

### Accenture Solutions Private Limited

Bangalore, India

*Advanced Application Engineering Analyst*

2022/11 - 2023/08

- Trained in Apache Hadoop File System and learned to use different big data analytics tools like Apache Hive, Spark, Cassandra and more as a fresher.
- Designed, developed, and implemented end-to-end data pipelines using Hadoop ecosystem tools such as HDFS, Map-Reduce, Hive, and Pig.
- Successfully integrated data from various sources including structured and unstructured data, enabling efficient processing and analysis within the Hadoop cluster.
- Implemented ETL (Extract, Transform, Load) processes to move data from various sources to the data warehouse.
- Implemented real-time data processing solutions using tools like Apache Kafka.
- Documented processes, procedures, and best practices for Hadoop cluster management and data processing.

## INTERNSHIPS

### TalentKraft Pte Ltd

Singapore

*AI Project Development Intern*

2024/01 - Present

- Conduct research and data gathering on relevant data for goal setting and performance review.
- Design and Develop Gen AI based solution to assist organisations in their Goal Setting and 360 Performance Review Process

### The Sparks Foundation

Vellore, India

*Graduate Rotational Internship Program (Remote)*

2021/02 - 2021/03

- Conducted thorough data analysis to identify patterns, trends, and anomalies in diverse datasets.
- Evaluated the performance of machine learning models using appropriate metrics and fine-tuned algorithms for optimal results.
- Implemented data preprocessing techniques to clean, normalize and transform raw data into suitable formats for machine learning models.

## EDUCATION

### Nanyang Technological University

Singapore

*Master of Science in Information Systems*

2023/08 - Present

- CGPA : 4.80 / 5.00
- Completing in May, 2024
- Focusing on Data Science and Text Mining through my choice of coursework specialization.
- Courses: Text and Web Mining, Data Mining, Internet Programming, Research Methods for Data Analysis, Information Retrieval and Information Visualization

### Vellore Institute of Technology

Vellore, India

*B.Tech Computer Science and Engineering*

2018/06 - 2022/05

- CGPA : 8.78 / 10.00
- Core Courses: Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Architecture
- Elective Courses: Web Mining, Statistical Data Analytics and Artificial Intelligence for Beginners

## SKILLS

---

- **Programming** - Python, Java, C, JavaScript
- **Big Data Analytics** - Apache Hive, Apache Spark, Apache Hadoop
- **Data Mining** - Machine Learning, Neural Networks, Natural Language Processing
- **Data Visualization** - Tableau, D3.js
- **Web Development** - HTML, CSS, Java Servlet, JSP, MySQL, AWS Deployment
- **Soft Skills** - Self-Motivated, Detail-Oriented, Problem-Solving

## PROJECTS

---

### Aspect-Based Sentiment Analysis of LGBTQ Issues in Singapore

*Text Mining, Deep Learning, NLP, Tableau*

2024/01 - Present

- Web Scrap data from online discussion platforms like Reddit and HardwareZone.
- Train and Evaluate a BERT based Transformer Model for Sentiment and Aspect Classification
- Analyze the Aspect based Sentiments with respect to Time using Visualizations in order to gain insights.

### Twitter Sentiment Analysis with MLP, CNN and BERT

*Text Mining, Deep Learning, NLP*

2023/08 – 2023/11

- Developed a machine learning model using Multilayer Perceptron (MLP), Convolutional Neural Network (CNN) and BERT for Twitter Sentiment Analysis.
- Implemented data preprocessing, model training and evaluation.
- Collaborated with team members to optimize model performance and accuracy.

### Singapore COVID-19 StoryBoard

*Data Visualization, Tableau*

2023/08 – 2023/11

- Developed a comprehensive COVID-19 StoryBoard focusing on the situation in Singapore.
- Utilized Tableau for creating insightful data visualizations and interactive dashboards.
- Collected and analyzed relevant data for the StoryBoard.

### Elegancy Stay - Hotel Management System

*Web Development, AWS Deployment*

2023/08 – 2023/11

- Developed a comprehensive Hotel Management System called “Elegancy Stay.”
- Implemented features such as reservation management, room allocation and billing.
- Collaborated with a team to ensure the successful completion of the project.

### Deep Learning Model for Analyzing Water Quality, Level, and Flow of Cauvery River

*Deep Learning, Environmental Analysis*

2021/11 – 2022/05

- Developed a Deep Learning model to analyze water quality, level and flow of the Cauvery River in India.
- Implemented features to predict and monitor environmental parameters.
- Contributed to the understanding and assessment of water resources using advanced technology.

## CERTIFICATIONS

---

- |  |                   |
|--|-------------------|
| • Certificate of Completion of Accenture Greenfield Training Program                   | 2023/01 - 2022/11 |
| • Intro to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning | 2021/03 – 2021/04 |
| • Artificial Intelligence for Beginners  | 2020/04 – 2020/05 |
| • Machine Learning Using Python  | 2020/04 – 2020/05 |
| • Statistical Data Analytics for Business Research                                     | 2020/04 – 2020/05 |
| • Data Science for Engineers - NPTEL   | 2021/01 – 2021/03 |
| • Programming in Java  | 2016/05 – 2016/06 |
